

Here's a complete professional "About Me" content for your website, incorporating your experience, skills, projects, and software/service pricing suggestions:

About Me – Sharjeel Sohail

I'm a passionate and results-driven **Full Stack Developer** based in Lahore, with a strong foundation in building modern, scalable web applications. With hands-on experience in developing AI-powered solutions, dynamic booking platforms, and real-time data systems, I specialize in turning complex ideas into intuitive and high-performing digital experiences.

I hold a **Bachelor's degree in Software Engineering** from Superior University and have consistently delivered results across diverse projects and industries. My work ranges from startup environments to production-grade SaaS platforms, combining back-end logic with elegant front-end user experiences.

Experience

Zimo Group | Full Stack Developer

May 2023 – December 2023

- * Developed an AI-powered chatbot using **React.js**, **Node.js**, and **MongoDB**, reducing customer calls by 35% and increasing revenue by 20%.
- * Conducted academic database integration and web scraping to enhance chatbot intelligence.
- * Built REST APIs and improved response time by 40%.

TheMorningHours | Full Stack Developer

Sep 2024 – Present

- * Building and maintaining scalable full-stack solutions using **React.js**, **Next.js**, **Node.js**, and **MongoDB**.
- * Enhancing performance and integrating third-party APIs for seamless functionality.
- * Focused on UI/UX enhancements and performance-driven development.

Technical Skills

- * **Languages:** Python, JavaScript, TypeScript
- * **Frontend:** React.js, Next.js, Nuxt.js, Vue.js
- * **Backend:** Node.js, Express.js
- * **Databases:** MongoDB, MySQL, Firebase
- * **Others:** Redux, REST APIs, Web Scraping, Chatbot Integration

Featured Projects

PUTKO Platform

A comprehensive full-stack booking platform with product management, user authentication, and order processing. Built with **React.js**, **Next.js**, **Redux**, **Node.js**, and **MongoDB**.

AgroSense

An AI-powered agricultural support system. Includes intelligent dashboards for farmers, built with **React**, **Express**, and **MongoDB**, enhancing crop yield and sustainability.

Software & Web Services Pricing

Here's a general breakdown of the services I offer and their indicative pricing:

| Service | Description | Price Range |
|--|--|-------------------|
| Custom Website Development | Responsive frontend with backend integration (React + Node) | \\$500 – \\$2000 |
| E-commerce Solutions | Product listings, cart, checkout, inventory (MongoDB + Stripe integration) | \\$800 – \\$3000 |
| AI Chatbot Development | Custom AI-powered bots with API and DB integration | \\$700 – \\$2500 |
| Full SaaS Platform | Multi-user dashboards, auth, cloud DB (complete package) | \\$1500 – \\$5000 |
| Landing Pages & Portfolio Sites | Fast, SEO-optimized sites | \\$150 – \\$600 |
| Database Design & APIs | MongoDB schemas, RESTful APIs | \\$200 – \\$1000 |

> *Pricing may vary based on complexity, timelines, and third-party integration needs.*

Let's Work Together

If you're looking for a developer who understands both **business goals and technical execution**, I'd love to collaborate. Whether it's building from scratch, optimizing existing systems, or integrating AI — I bring energy, precision, and creativity to every project.
